Grotesque, satirical, and irresistibly funny. A sharp-tongued declaration of love to an era long gone.

It all begins quite harmless: True Kakanian patriot Jaromir von Eynhuf decides to bestow the gift of his milk tooth collection on his beloved monarch on the occasion of the latter's royal jubilee. As fate will have it, the collection is still incomplete. On his quest for the last milk tooth, the loyal official of the royal court's drum depot bravely faces the trials and tribulations of Kakania. With his debut novel, Fritz Herzmanovsky-Orlando created an unforgettable literary monument to Imperial Austria and the Habsburg monarchy.

FRITZ VON HERZMANOVSKY-ORLANDO

is a master of the grotesque and one of the great representatives of Austro-Hungarian world literature. This is the first single volume edition of "Scoglio Pomo", which remained unpublished in Herzmanovsky-Orlando's lifetime. It is unabridged, unmodified, richly illustrated and the first of four volumes of his most important works.
