RENÉE SCHROEDER

All molecules always in motion

Hardcover, 224 Pages, 140 x 220

ISBN: 9783701734887

€ 24,00 incl. VAT

Release date: 24.09.2019

This biography of the unconventional biochemist is an inspiration and invitation to all women to go their own way.

Renée Schroeder is a multi-faceted woman. A biochemist based in Vienna, she fought her way to the top of the international scientific community. No small undertaking for a woman in this field. Now in her 'unretirement', she has started a new career on her own farm, researching wild herbs. Renée Schroeder's life has never been conventional. Born in Brazil in 1953, her family moved to Luxembourg when she was a child and then to the Austrian town of Bruck an der Mur. After training in Munich, Paris and the US, she settled in Vienna to build her career. A staunch atheist, she has fought many battles relating to science and feminism. This is a compelling biography about an extraordinary and strong-minded woman.

URSEL NENDZIG

born 1980. After studying Economics, Nendzig partook in a journalistic training. She is an editor for "Universum" magazine and a freelance author for several magazines and newspapers.
